290	50	Problem Parking	Junction of Farm Lees, New Street. Cars are parked on the corner of junction making it difficult to see cars approaching on New Street		290

290		General box	We feel it is important to think about, when considering increasing infrastructure to support population growth, groups & businesses that already exist in Charfield which could develop their capacity. For example using the village Hall as a central community hub building rather than building a new building or developing Steve's shop or the petrol station instead of building new shops/ supermarket. It is very important to us that existing local groups & business are not replaced but are hlepded to develop		290

296	General box		Moved to village in 1977. My greatest wish would be to continue to live in a VILLAGE. So please help to resist further developments in such a beautiful area especially areas already built upon like Renishaws. Villagers have fought developments in the past. We were able to use village boundaries in order to do this. If building houses could continue behind existing houses so much the better but please leave our green fields and village environment		296

297	14	Your activities	I run ( in the village) because other work/commitments mean I can't commit to regular sessional group times. Cinema-Very Rare-Prefer Wotton or occasionally(once) Yate. Really don't like huge venues. Music -Tend to go further afield Cardiff or Bristol Really enjoyed Kit Holmes. 			We need to utilize the Memorial Hall as a community hub/ information point. We need a coffee shop/café which people can spend time in. We have 3 pubs, yet are limited for choice in eating out. None of our pubs are much good for children and we do not have ONE beer garden between them. Transport is terrible. I would love to look at some kind of 'Community Transport' with an accessible vehicle which can be housed somewhere. An accessible path ( circular) with benches and shrubs for sensory walks perhaps/ We could hold regular group walks? dursley does. Good Luck and Thank you.

326	57	Size of home	These are already in progress. Do not support additional builds		326
326	58	type of home	..if any		326
326	66	Reasons for Move	We like living in a village and will not stay if it becomes a town with no fields remaining to walk dogs		326

326		General	1000 houses for a village such as Charfield is ridiculous, for the reasons below: 1. No adequate facilities to support such a large amount of development eg school, transport, shops, employment. 2. Employment - Renishaw alone isn't an employer sufficient for this amount of people. Therefore traffic to and from the 'village' will increase significantly. There are already queues throughout Wotton Rd in rush hour because commuters from the surrounding area use it to get to the M5. This includes commuters from the Stroud area. Added to people travelling to and from KLB & Renishaw. 3. Countryside. Charfield's fields and views are so valuable to its character and community. So many residents use the fields for walking and walking dogs. The residents meet up, its a great way to meet other walkers regularly and this will be something we lose if developments are built on these fields. Cont ( No record of further text)		326

330		General	Development should be kept to a minimum + NOT be built on any areas that are likely to flood, thus increasing the incidence of flood elsewhere + causing insurance problems for all. The train station should be re-opened which would potentially ease traffic congestion into major cities such as Bristol + Gloucester. We live in a village- keep it that way- not somewhere that ends up being swallowed up and merged into the next village. We have a strong community feeling in Charfield, lets keep it this way		330
