

Statement of Reasons

Westerleigh Crematorium Pedestrian Improvement Scheme

Background

Funding has been secured through the 2019/20 Local Transport Capital Programme to construct new pedestrian facilities for members of the public visiting the Crematorium by means of public transport.

Purpose of Scheme

The purpose of the scheme is to improve the pedestrian link to and from an existing and new bus stop on both sides of Westerleigh Road, to the Crematorium. An uncontrolled crossing facility is also proposed to assist with pedestrians crossing this section of road.

Proposed Scheme

It is proposed to;

- Construct new footways on both sides of Westerleigh Road within the verge where an existing and new proposed bus stop is to be sited.
- Construct two new 7 metre bus boarders within the proposed footway designs to accommodate both existing and new bus stop sites. Bus cages are also proposed to be implemented on the carriageway.
- Provide an uncontrolled crossing facility including a central refuge island.
- Install dropped tactile kerbs within the new footways to link up with the desire line of the proposed refuge island. A further dropped kerb will be provided near to the entrance of the Crematorium.
- Remove the existing bus stop south east of Westerleigh Road.

Drawing Reference

Drawing number T434-302-12 shows details of the proposed scheme.

Timescale

Depending upon the result of this consultation it is hoped that the proposed scheme will be implemented during the 2019/20 financial year.
