If you would like to see a copy of the experimental traffic order, a map, copies of any orders to be varied/suspended and a copy of the Council's Statement of Reasons for making the order, you may do so by visiting the Council's website at [www.southglos.gov.uk/consultation](http://www.southglos.gov.uk/consultation). If you are unable to do this but would like copies of the documents to be either emailed or posted to you, please contact the Council quoting the reference below by writing to the address at the bottom of this notice. ## IMPORTANT

Due to the Covid-19 emergency restrictions, limited One Stop Shops are open and access is by appointment only. The safe and preferred option to access documents is by means of the links above.

In due course the Council will be considering whether the provisions of the experimental traffic order should be continued in force indefinitely. Any person may object to the indefinite continuation of the experimental order within six months of the experimental order coming into operation. Objections must be in writing stating the grounds on which the objection is made to the indefinite continuation of the experimental order or, if the order is varied, beginning with the day on which the variation came into force. The reason for proceeding by way of an Experimental Traffic Order is to assess the effects of the measures for a trial period before consideration is given to whether the provisions of the Experimental Traffic Order should be made permanent.
