#### **IMPORTANT**

Due to the Covid-19 emergency restrictions, the safe and preferred option to access documents is by means of the links above.

In due course the Council will be considering whether the provisions of the experimental traffic orders should be continued in force indefinitely. Any person may object to the indefinite continuation of the experimental order within six months of the variation experimental order coming into operation. Objections must be in writing stating the grounds on which the objection is made to the indefinite continuation of the experimental order or, if the order is varied, beginning with the day on which the variation came into force.

The reason for proceeding by way of an Experimental Traffic Order is to assess the effects of the measures for a trial period before consideration is given to whether the provisions of the Experimental Traffic Order should be made permanent.
