**Errata Sheet**
**Front Cover**
**Main Text of SFRA Level 1 Report:**
- Abbreviations 1
- Glossary 2
- Introduction 4
- The South Gloucestershire Study Area 8
- Data Collection and Review 11
- Flood Risk 20
- Flood Risk Management 29
- Focused Assessments 40
- Guidance on Applying the PPS25 Sequential Test 49
- Guidance on Applying the PPS25 Exception Test 56
- Site Specific Flood Risk Assessment (FRA) Guidance 61
- Conclusion 64
- References 67

**Figure 1** - Study Area
**Figure 2** – Main rivers, rhines and sub catchments within the study area
**Figures 3A - 3D**: Main fluvial & tidal flood sources:
- Figure 3A - NW & N of study area
- Figure 3B - SW of study area
- Figure 3C - E of study area
- Figure 3D - S of study area
**Figures 4A – 4D**: Historic and potential flood sources:
- Figure 4A - NW & N of study area:
- Figure 4B - SW of study area
- Figure 4C - E of study area
- Figure 4D - S of study area
**Figure 5** – NFCDD defences- 5% annual probability or greater standard of protection
**Figure 6** – Areas of worked & unworked coal across study area
**Figure 7** – Structure and man-made defences
**Figure 8A and 8B**:
- Figure 8A– Flood watch areas within study area
- Figure 8B – Flood warning areas within study area
**Figures 9A and 9B**:
- Figure 9A – Geology- bedrock
- Figure 9B - Geology - superficial deposits

**Figure 10** - Areas of Search within study area

**Appendix A** - Policy Context and Policy Recommendations
**Appendix B** – Wessex Water Sewer Flooding Data
**Appendix C** – River Frome Historic River Improvements
**Appendix D** – EA Severn Estuary Flood Risk Management Strategy
**Appendix E** – South Gloucestershire SuDs Supplementary Planning Guidance
**Appendix F** - Suitable SuDS Techniques- bedrock geology and soil
**Appendix G** – Sequential Test and Exception Test Table
