

South Gloucestershire Core Strategy Examination Action List

Suggested Changes – Matter 17 – Strategic Green Infrastructure Network

1. At the EiP Matter Session 17 – Green Infrastructure, Sport and Recreation; Mr Crawford of the South West Transport Network sought the specific inclusion of reference to Charlton Common on the Strategic Green Infrastructure Network diagram.

2. The Council recommended that it would not be appropriate to specifically name this individual common, as it would be inconsistent with the approach taken on other sites. The Council did however accept that a change to the description of 'Zone 6' to include reference to 'commons' was appropriate and consistent with the descriptions of other zones. The following change is suggested:

...

ZONE 6

Visually Important Hillside & Landscape; Commons, Frome Valley; Strategic Paths; Local Nature Reserve; M32 Corridor; Haw Wood; Stoke Park; Historic Parks & Gardens; Landscape Character Areas 13,15,18

3. This suggested change will be added to the Schedule of Rolling Changes.
