

South Gloucestershire Core Strategy Examination Action List

CS21 Gypsy and Traveller accommodation

At the EiP Matter Session 12 – Gypsies and Travellers; clarification was sought by one of the developers over the type of pitches that were to be made available within the new neighbourhoods. The Council confirmed that the provision of pitches within the new neighbourhoods were residential only and not transit. As a result, the Inspector asked for clarification, if appropriate, to be made within the Gypsy/Traveller accommodation chapter of the Core Strategy.

Having checked this, paragraph 10.66 of the Core Strategy currently states:

“Providing extra pitches on existing, family sites could potentially generate an additional 27 residential and 9 transit pitches **and it is anticipated that between 24 and 32 residential pitches could be provided as part of delivering the new neighbourhoods.”**

It is considered that the wording of this paragraph is clear and therefore no further changes are required.
