

Suggested Changes – Matter 22 – Communities of the North Fringe

1. At EiP discussion with regard Matter 22 (North Fringe) the Inspector requested that the reference with regard 'improvements to Filton Abbeywood Station' as set out in the East of Harry Stoke Transport Package (policy CS7, para 7.7.) is reconsidered. Consequently, it is recommended to delete the reference, given the recent announcement of the City Deal and the improved prospect for delivery of the Greater Bristol Metro (GBM) project, which includes improvements to Filton Abbeywood station. Focussing available developer contributions to heavy rail via the GBM continues to enhance the prospect of implementation of the scheme and flexibility with regard how resources are utilised.

2. Amendment to para 7.7:

Contributions towards the A4174 Ring Road Scheme, and the Greater Bristol Metro ~~and improvements to Filton Abbeywood Station.~~ the extension of the A38 Showcase Bus Corridor to Thornbury.

3. This suggested change will be added to the Schedule of Rolling Change.
