Matter 17: Green and Community Infrastructure & Cultural Activities, Sport & Recreation

Question 1: Should the policy or supporting text to policy CS2 acknowledge that the Council's objectives for existing or new Green Infrastructure provision will not necessarily affect all areas identified in the Strategic Green Infrastructure Network diagram?

- 1.5 The policy or supporting text should make this position clear. As currently worded, **Policy CS2** implies that all of the identified objectives will apply to all green spaces. This is not, however, the case.

Question 2: Should Policy CS2 include reference to the contribution of woodland as part of Green Infrastructure initiatives?

- 1.6 Our clients believe that **Policy CS2** should include reference to the contribution that can be made by woodland as part of Green Infrastructure initiatives.

Question 3: How will viability be taken into account when assessing the need for facilities and how will the priority for different facilities be determined?

- 1.7 As is noted with respect to other matters, **Persimmon Homes** and **Maximus Developments** agree that viability associated with the requirements of **Policy CS2** should be taken into account. Priority will need to be given to additional or enhanced Green Infrastructure in line with the Council's overall objectives for the area and the other priorities which might compete for funding in circumstances where viability of development restricts the ability to deliver all required obligations – please cross refer also to Matter 16.
