**Subject:** houses on Morton Way

I would like to register my protest about

-the expectation on Thornbury to take yet more new housing after the lengthy discussions we have already had.

-the underhanded way the decision was taken by the South Glos council

- and the decision to recommend putting them on the far side of Morton Way from the rest of the town.

The people of Thornbury have demonstrated that they do not want housing to breach the boundary provided by that ring road.

I wonder what is going to happen on the land where the unused police station is situated. Perhaps more housing can be put there which would be convenient to the town and all its amenities. So I guess there will be capacity for more housing in the future but let's get the Park Farm estate up and running and those people assimilated before making decisions about yet more development—and certainly NOT across Morton Way.
