

With regard to the above I wish to object to this proposal on the following grounds :--

Why should Thornbury have to accommodate all the extra 300 houses which the Inspector of Core Strategy is looking for across the whole of S Glos

This is a green field site and will lead to more sprawl

It is too much development all at once when taken with the Park Farm development

It will further overload the Town's infrastructure such as roads, parking and public facilities

I urge you to resist this extra development in Thornbury

Jon Hartnoll
