Russell Weller - No houses on Morton way

To kath Thorne,

Hi my name is Tanya Weller and I live with my husband and son at osprey park, we have lived here for 19 years this June, we would hate for houses to be built along Morton way, we need our wildlife and if we had more houses would we get a proper hospital? A bigger health centre? A police station manned all hours? Bigger schools? Because no one has thought about the consequences have having more people, we need more public services if we get more houses, it's already a problem at the health centre getting appointments, the crime rate will go up, there will be more accidents on Morton way because children have to walk to school and the traffic is bad when they have to cross the road, do we need more shops in the middle of the houses as we have loads of vacant shops in thornbury which need to be filled, not to mention there will be more depression from looking at these houses an not seeing the countryside which seems to be rapidly disappearing due to the greediness of the property developers and the council who want more money and not giving much back in the public services, the roads on Morton way is atrocious, tarmac is always turning into potholes due to all he traffic, So please " NO More Houses"

Yours sincerely,

The Weller family
