Ashley Haigh

RE Planning application by Bloor Homes no. [PT12/2395/0](#).

Dear Sir/Madam,

I wish to object in the above planning application on the following grounds.

It has been for some time, now a priority that no new homes are built beyond Morton Way in the buffer zone between Thornbury and the A38. This would be a breach of the natural Town boundary and would push new houses further away from the Town High Street. The residents of Thornbury are reluctant to have any new housing and if we have to endure this, the existing choice made by the Town Council to build 500 new houses at the Park Farm site is the least worst option.

The residents in the Morton Way area feel very strongly about preserving the green space around our homes and I am sure that they will resist any new developments here very strenuously.

Yours faithfully Ashley Haigh
