

Subject: NO MORE HOUSES NEEDED IN THORNBURY

FAO Kath Thorne, Programme Officer, South Gloucestershire.

I am writing to re-iterate my original comments on the proposed new housing at Morton Way Thornbury.

When I moved to Thornbury 20 years ago, I called it a Village .. the residents proudly pointed out that it is a small market town. The character has changed with the market now gone, the Police Station going & with very large building programmes destroying its previous desirability.

With the proposed Nuclear Power Station Programme being approved, I question whether there will be ANY demand for housing in Thornbury. I personally, am seriously looking to move away, rather than live in the shadow of huge cooling towers which will dominate it.

Enough is enough ... Midland Way should be regarded as the town's boundary & no further building is outside this.

LEAVE OUR GREEN AREAS ALONE we do not want to sprawl like Yate.

Yours, John Knapman
