R Bennett - Additional 300 houses on Morton Way Thornbury

To Kath Thorne
Programme Officer,

Dear Kath Thorne

I am writing to express my opposition to the plan to build an additional 300 houses on the fields off Morton Way. The Core Strategy already requires 500 new houses in Thornbury, which I think is in excess of the number that Thornbury can reasonably cope with or needs. I also believe that development on the green belt off Morton Way will open the flood gates for more development whether it is good for Thornbury or not. Once the precedent has been set developers are likely to put pressure on all the land up to the A38 and eventually turn it into a sprawling new development with inadequate infrastructure. Thornbury is only just holding its own. More pressure on our limited resources is not needed.

Yours sincerely

Robert Bennett
