Dear Mr Home

My wife and I would like to emphasise that we are strongly against any further development in and around Tombury beyond that already agreed.

In our opinion any additional houses could very well overstretch the existing facilities and result in flooding. This area has been subject to flooding in the past & we reckon that more houses with all that would be entailed could cause it to happen again

It goes without saying that more housing would spoil a very pleasant district. I am 90 years of age & my wife in her 80's so you will appreciate we are not thinking of ourselves but future generations

Yours Sincerely

L. J. MILLS
