Subject: Morton Way housing development

Hello Kath,

I am very saddened to hear that the proposal to build more houses on Morton Way is still going ahead. This area of Thornbury is beautifully designed with an abundance of wildlife as its stands. This will be ruined if further houses are built. I specifically moved to Thornbury because of the excellent plans for the town, with a good people/access ratio, the future goals I believed were to improve the town and encourage growth in a positive way. Building on Morton Way is unacceptable as this is too far from the town centre and will just become another Bradley Stoke. The Morton Way roads themselves will not cope with the volume of traffic and congestion. With a recession on, people won't be able to afford new houses too. I have always been proud of where I live and the surrounding area but if this planning goes ahead the area will reduce in cost. So in summary, please look for vacant land closer to Thornbury Town centre and leave Morton Way as it is!

Regards
Angela Whitcombe
