Subject: Proposed Housing development Morton Way- Thornbury

I write to register that I do not wish as a resident of Thornbury for any further development of houses on Morton Way

The development would destroy what is currently green space I am also concerned that the infrastructure of roads and facilities would not cope.

I understand that the development in Park Farm is going ahead

This is sufficient development in my view and the potential development of any further houses on Morton Way should be stopped.

Many thanks

Mark Windeatt
