

Dear Ms Thorne

I write to make you aware of my hopes that the proposed building of houses on Morton Way will be stopped in it's tracks. I feel that Thornbury has grown so much over the last forty years it is time to call a halt, especially in light of the developments at Park Farm - houses built in the most unsuitable place which locals know will be at high risk of flooding at the very least.

If building of houses is allowed on Morton Way there will be calls for more and more until Thornbury has no proper boundary. This is such a pleasant town to live in still but uncontrolled development will overload all the services and completely spoil the character of the town.

Please do all you can to make the Inspector aware of the strength of feeling against the Morton Way proposals - enough is enough.

Yours sincerely

Pat Mason
