320 FEBRUARY 2013

FOR THE ATTENTION OF KATH THORNE

Dear Sir,

Re: Morton Way proposed housing development.

I and my family have been a resident of Swallow Park, Thornbury for the last fourteen years and prior to that ten years in Jubilee Drive.

Over this period of time we have enjoyed/used and benefited from the views and walks available to us off Morton Way and would be devastated to lose this countryside to housing for the following reasons :-

- 1) The current development off Morton Way at present provides a natural boundary which we believe once breached will in future allow yet more fields to be swallowed up in urban sprawl.
- 2) At present Thornbury retains that market town feel with a strong community spirit which will be ruined with too much development.
- 3) Another 300 houses on top of the 500 already agreed means at the very least 800 more cars using the roads of Morton Way / Gloucester Road ect. Where does this fit in with a small market town?

I hope like many others that common sense will prevail and that for once the views of our council and people who have lived for the best part of their lives here will be listened too.

Yours faithfully
