

R.HOUSE – Response received 28 April

I write to as a very concerned resident of hambrook lane stoke gifford.why do the council feel the need to build on every green bit of land? Do we really need 28,000 + houses in south glos??.why are the local communitys view not taken into account,most of the community are against more houses,we are the people who have to live in these areas,as a members of hambrook lane action group we would like are questions answered.as to where all these new people are going to work where there children are going to school & very important to my family what will be done about even more cars using hambrook lane as a race track!!
