

Dear Programme Officer,

I note that the study does not take into account the considerable existing traffic congestion with its attendant health problems etc.

I object to more housing which will increase the amount of traffic which the road system cannot cope with.

The current levels of traffic congestion may cause delays to emergency traffic to and from the new accident centre at Southmead hospital so any increase would almost certainly result in loss of life due to the delays, particularly in the case of a major motorway accident.

Regards

Adrian Kerton MSc.
