Subject: Proposed Green Space Code - LGSD936

Importance: High

Dear Sir/Madam,

You have written to us regarding the above as we own this land. I would like to point out that the description does not relate to the area marked in red on your map. The Nominated Space is described as 'Withy Wood' and the area you have marked is not the 'Withy Wood' and contains no trees whatsoever. The area you refer to is to the North West of the area marked in red and abuts the allotments to one side and the area you currently have marked in red which to the other. The area you currently have marked is not woodland or a withy bed and is currently used for horse grazing.

Can you please arrange to revise your plan to the area which is actually 'Withy Wood' and contains a withy bed and established wood.

Can you please confirm this has been done.

Kind regards
