Subject: Re: Green Space LGSD256 - Local Green Space Designation Consultation- Summer 2015

Dear planning team,

Please note that I object to the proposal to designate our piece of land as a green space. I have no intention to develop this space, however should the planning dept ever grant permission to develop the field opposite our house and thus ruin the aspect of our premises then we will retain the right to develop our land and find a new home with a green space that hasn't been encroached upon by developers.

Best regards,

Subject: RE: Green Space LGSD256 - Local Green Space Designation Consultation- Summer 2015

Hi,
I have been made aware of this 'consultation' by a neighbour who received a letter concerning the proposed green space designation of code LGSD256- Highway verge along Abson Road.

We live at [REDACTED] and own the strip of this land directly opposite the property, however we have not received any correspondence from the planning department either notifying us or inviting us to comment on the proposed change of status to our own land. I notice that the consultation period has closed, however I must highlight that as we have not received any notification to this, we must insist on a reasonable opportunity to consult with the planning department on this matter and share our decision as to what we wish to do with our own legally purchased land.

I look forward to hearing from you,

Regards,

Dear Sirs, can I register my objection to my private land being designated "Local Green Space".

I haven't spent much time researching this topic but my immediate reaction was that South Glos were trying to prevent the increased development deemed necessary by the Government under their relaxing of the Planning regulations.

Also, please note that you wrote to notify me of this proposal four weeks into the six week consultation period, just as I was about to go away on holiday. My neighbours, who also own land designated LGS, have been not been notified of this proposal to my knowledge. I asked four of the other seven affected households and gave my letter to one of them.
