8. The proposed space is of particular local significance because of its recreational value
9. The proposed space is of particular local significance because of its tranquillity
10. The proposed space is of particular local significance because of its richness of wildlife

Winterbourne Parish Council purchased the land with the intention of creating a much needed new community woodland in an area of the village where no similar facilities existed.

Newleaze Community Woodland was originally planted in 1998 to create an oak/birch woodland at its core and to include other trees around its perimeter.

It was recognised that a woodland amenity site close to the village of Winterbourne would be able to bring the natural world closer to residents.

It has a pond and is abundant with wildlife.

It has nature trails within and is used by local schools to make children of all ages aware of nature.

Newleaze is regularly used by local residents for walks, picnics and similar recreation activities.

A group of highly experienced volunteers manage the upkeep of the area maintaining the wide range of trees and flora. The site is used as a nesting site for owls and accommodates special nesting boxes provided by the Hawk and Owl Trust whilst other fauna use the pond margins and adjoining rhyme as a home.

It has grown into a beautiful and fulfilling piece of land.
