In response to your consultation, which it seems impossible to comment upon, I am making known my complete and absolute objection to the redevelopment of any part of Filton Elm Park or its award winning Community Garden.

The Garden is a much loved space used by residents and pupils of all the local schools for projects and gardening groups. The skate park is one of the few facilities available to our teens and young people. Its destruction for the construction of a road is quite frankly disgusting.

It is my understanding that Elm Park was left to the residents of Filton and any change of use or redevelopment would need their agreement.

The last attempt at redevelopment was met with a swathe of community outrage and demonstrations. I expect the same response from the community if you attempt what I consider to be theft of residents community space.

Kind regards

Julie Truckle
