Subject: Policies, Sites and Places Plan Main Modifications Consultation (June 2017) Elm Park Playing Fields, Map 70.

Dear Madam/ Sir,

I'm writing on behalf of the plans for a new road being installed in Filton through Elm Park. I'm writing in protest on account that the skate park and field is a large part of the community that I come from. I started skating there at a very young age and met a lot of my friends there and I now continue to teach skating there too and getting youngsters involved in skating. By taking down this park you will be destroying a place where kids can meet and socialize with out causing damage or antisocial behaviour to the community and you will be taking away something the government is trying to get youngsters to do by taking part in outdoor and sporting activities. Would this all be worth it for another road that will be filled with more traffic which will create more pollution to out planet?

Thank you for your time,
Yours sincerely,

Max Davies
